

ATTACHMENT 019
BUY AMERICAN ACT EVALUATION

DFARS 225.503 states: Evaluate group offers in accordance with FAR 25.503, but apply evaluation procedures of DFARS 225.502.

IAW FAR 25.503(c), as this solicitation specifies that award will be made on all line items contained in the solicitation, the determination of whether to apply an evaluation factor will be based on the group offer as a whole.

1. Buy American Act (BAA) requirements will be evaluated and applied in accordance with DFARS 225.503 (and referenced clauses) for award on a group basis. Offerors will provide BAA certifications based on the maximum quantities for each CLIN per year of execution as defined in paragraph A-10 of the executive summary of this solicitation. NOTE: Amendment 003 allows offerors the option of certifying to ranges for each CLIN up to the maximum quantity.

2. The BAA evaluation doesn't apply to the shipping unit prices. The evaluation will be accomplished in the manner described in the revised attachment 013, "Evaluation Example".

3. IAW FAR 25.503(c)(1): If the "sum of domestic prices" (see the solicitation example in attachment 13, on the tab labeled "BAA Status") exceeds 50% of the "total evaluated price for BAA evaluation" for all of the items covered by this solicitation, the entire group or offer will be evaluated as a domestic offer. Otherwise, the group or offer will be evaluated as foreign.

4. IAW FAR 25.503(c)(2) and DFARS 225.502(c)(i)(A): For foreign offers, if the sum of the proposed price of domestic end products plus the proposed price of foreign offers exempt from BAA ["...only qualifying country end products are exempt from application of the Buy American Act...evaluation factor."] exceeds 50% of the total proposed price of the group, the entire group will be evaluated as a foreign offer exempt from BAA.
